

Is My ADHD Child's Treatment working?

Fill this chart out before your child begins their treatment. Fill it out again after he or she had adjusted to the treatment. Adjustment time will vary by treatment. Reassess whenever you adjust the treatment. On a scale of 0 to 5 with 0 being no symptoms and 5 being high symptoms, how does your child score? This list is based on common traits of ADHD.

	0	1	2	3	4	5
aggression						
excitability						
fidgeting						
hyperactivity
